### **Fastrack Responds to CEDI Announcement**

Plainview, NY...Fastrack Healthcare Systems, Inc, announced today that all Fastrack clients on their licensed and web model will see no disruption in their ability to send transactions to Medicare due to the recent CEDI announcement. Fastrack utilizes IVANS, one of the six CEDI approved network service vendors to send Medicare transactions over a secure Internet connection.

According to Spencer Kay, President of Fastrack, "Our clients will continue to benefit from our free Medicare electronic claims submission. Fastrack, since it was founded almost 17 years ago has always allowed its' clients to submit to Medicare, Medicaid and almost 2,000 commercial payors without a claim fee and have every intention of continuing this policy."

In addition to sending claims electronically to Medicare, Fastrack offers its clients the ability to verify Same and Similar status, eligibility including recurring rentals and scheduled supply orders, claim confirmation (997), claim status inquiry (276/277) and automatically post the ERA (835) eliminating the manual cash posting process. Most of these features are also available within Fastrack for Medicaid and commercial payors.

Fastrack offers a wide range of free services to its' client to assist in claim processing including the ability to update on a daily basis the PECOS status for all physicians in their database as well as regular updates to Medicare fees, HCPC and ICD9 Codes.

Fastrack also offers electronic statement printing through Emdeon and ZirMed for private pay claims.

Since Fastrack offers software solutions for HME providers, Infusion Pharmacies and Home Healthcare Agencies the software supports Part A and Part B billing.
