Fastrack Launches Medicare Gateway

- A Free Service to Clients -

Plainview, NY...Fastrack Healthcare Systems, inc. is proud to launch its' Gateway for Medicare transactions including Claims Submissions. Providers will be able to submit claims to Medicare (CEDI) through Fastrack's secure website, which will support an unlimited number of users per provider.

"As CEDI discontinues their free dialup gateway, providers will have to find alternative ways to send the claims to CEDI. Most options are costly and/or require complicated hardware infrastructure to be installed. Fastrack has made this simple by setting up this Gateway the "Fastrack Medicare Claims Submission Center" part of our secure website utilizing the IVANS Network," stated Fastrack's President Spencer Kay.

In view of all the reimbursement cuts, the bad economy, and all the new regulations coming down the pike, Fastrack has decided to implement the new Fastrack EDI Network with CEDI and the four DMERCS for the purpose of sending claims (837P and 837I) to CEDI, processing 835 ERA files as well as the 997, GENRPT and other reports free or charge to all Fastrack clients. For a nominal fee non-clients can utilize the gateway by simply uploading the appropriate files.

Furthermore, Fastrack has added the capability to process eligibility transactions directly with CMS through this same Fastrack EDI Network, these transactions are real-time. Fastrack added to the network the Claim Status Inquiry (CSI) and Same and Similar Status with the four DMERCS.

Clients will access this new Fastrack EDI Network by connecting to Fastrack's Secure Gateway at the Fastrack Website. This is a fully secure site, easy to use and will not require the use of a modem.

Providers can log-in to the Fastrack website at <https://www.onlyfastrack.com> to upload Medicare claims (837I, 837P), and download payment and report files (835, 997, GENRPT).

Fastrack is the leading supplier of software & technology to Home Medical Equipment providers, Durable Medical Equipment, Respiratory Providers, Home Infusion Pharmacies & Home Healthcare Agencies. Only Fastrack offers a solution for each individual segment of Home Care as well as one system encompassing virtually every clinical, operational and financial aspect of a provider's business, offering several or all of these product/service lines within one integrated Microsoft SQL database.
